

Spark!

Discovery Boxes

For ages 8 years+

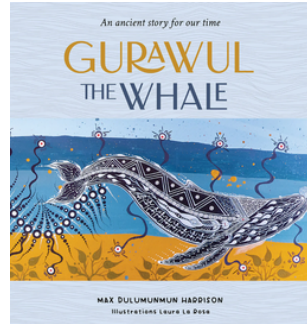

Spark! Boxes are loanable, reusable science kits. Each Spark! Box is designed to provide an authentic scientific experience and includes carefully researched and well-designed notes to help users get the maximum benefit. The notes suggest things to try, interesting facts to discuss, and information where to find other related resources.

Spark! Boxes are intended to enhance child, family and community access to age-appropriate, quality scientific equipment.

Aimed at children 8 years and older, Spark! Discovery Boxes can be borrowed at the front desk.
